Property limits, POU, POD, selected infrastructure, and basis of bearing determined using corrected submeter GPS data in 1927 US State Plane California Zone 3 coordinates, NADCON datum, and US Survey feet. Quad map scanned, scaled, rotated for visual best fit to GPS data, with minor distortions observed. Section lines projected from known corners using a standard 1-mile grid unadjusted for curvature or local distortion. Field verify critical locations and areas using supplemental survey as required.
